**2. Legal Description of Facility (attach map with RFI):**

526 West Aviation Road, Fallbrook, California 92028

Section 24, Township 9 South, Range 4 West, SBBM

**3. Findings:**

- a) This facility is a materials recovery facility and transfer station and the site identification and description of the facility has been submitted to the task force created pursuant to PRC § 40950 for review and comment, pursuant to the procedures set forth in Public Resources Code § 50000 (d). The local task force provided written comments on October 25, 1996.
- b) The LEA has determined that the design of the facility would allow for the facility operations to be conducted in compliance with the State Minimum Standards for Solid Waste Handling and Disposal, based on a review of the November 1996, Report of Station Information.
- c) This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB). Public Resources Code, § 44010.
- d) The North County Fire Protection District has no objections to the creation of the facility and will issue specific requirements after conducting an on site visit with the developer as evidenced in their letter dated July 9, 1996. Public Resources Code § 44151.
- e) The LEA has reviewed and considered the information, including the environmental effects of issuing this Solid Waste Permit, contained in the Negative Declaration prepared by the County of San Diego dated November 22, 1996, and finds there are no significant unmitigatable environmental effects arising out of the issuance of this Solid Waste Permit.
- f) A County-wide Integrated Waste Management Plan has not been approved by the CIWMB.
- g) The following authorized agent has made a determination that the facility is consistent with, and designated in, the applicable general plan: James C. Chagala, Chief of Current of Planning, San Diego County Department Of Planning and Land Use Public Resources Code § 50000.5(a).
- h) The following local governing body has made a written finding that surrounding land use is compatible with the facility operation, as required in Public Resources Code § 50000.5(b). San Diego County Planning Commission

**14. Prohibitions:**

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, or hazardous waste unless such waste is specifically listed below, and unless the acceptance of such waste is authorized by all applicable permits.

The permittee is additionally prohibited from the following items:

Hazardous materials, biohazardous waste, liquids, waste containing more than 50% water, friable and non-friable asbestos, large dead animals, and radioactive wastes.

## 7. LEA Conditions:

- The design and operation of this facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal for a Transfer/Processing Station.
- Any change which would cause the design or operation of the facility to not conform to the terms and conditions of the permit may be considered significant change and require a permit revision. If the operator proposes significant change, an application for permit revision shall be submitted to the LEA 150 days prior to the change.
- The permit is subject to review by the LEA and may be modified, suspended or revoked for sufficient cause after a hearing.
- The Operator shall maintain a copy of this permit, Report of Station Information and State Minimum Standards for Transfer/Processing Station at the site at all times.
- There shall be no scavenging.
- All non-salvageable wastes shall be removed from the site at a minimum of every 48 hours.
- Additional information regarding the design and operation of this facility must be provided to the LEA upon request.
- If the proposed dust control systems fail to be adequate for the control of dust in the operations of the facility, the LEA may require additional mitigation measures be installed.
- Stored recyclables shall not interfere with facility operations or cause a public health nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of recyclables necessary to protect health or prevent a nuisance.
